SANGO BOX

Compact Retail PC

All Sango's high performance and powerful technologies within an ultra-compact Retail PC

With compact dimensions, this POS retail PC is safe, reliable, long-lasting and easy to maintain, at home in both "front office" environments (cash desk) and in the "back office" (where it can be used as a server for example).

Connected to a monitor such as the Sango Touchscreen, it functions as the nerve centre of an ultra-high performance POS modular system.

The **SANGO BOX** will adapt to the technology requirements of all users: 3 types of processors are available (including a **fanless i5** for boosted performance), as well as a range of connection options.

It offers a glossy polycarbonate finish, featuring, in option, mix & match range of sango's seven modular colours (Black is the standard colour (aluminium cover) ; White, Red, Blue, Orange, Grey and Cassis are optional (polycarbonate modular covers).

TOUCH THE DIFFERENCE

SANGO BOX

3 different types of processors available
(among which a fanless i5 version)

Multiple connection ports

INTEL HD Graphics core

Flash disk (SSD)

Fanless PC (no ventilation) with low power consumption

High quality materials and detailed finishes

Associated peripherals available (sango touchscreen, etc)

7 colours (Black in standard, in option : White, Red, Blue,
Orange, Grey, Cassis)

MODEL	J1900	I3	I5
