All-in-One Compact
Android POS System

A simple, reliable Android POS System at **a great price!**

This reliable system is based on an ARM (Advanced RISC* Machine) processor and thus perfectly meets the needs of the POS market in terms of Android requirements, guaranteeing an easy access to Google Play Store thanks to its GMS certification (Google Mobile Services).

This low-cost POS system offers the AURES **quality**, together with clean lines and design, ensuring reduced power consumption thanks to the CPU which has been developed for mobile devices.

*Reduced Instruction Set Computer
