Star TSP100C SK

Improve accuracy and efficiency from order to delivery.

Part of Star's popular TSP100 printer range, the TSP100IV SK is an economical and compact thermal label printer for printing liner-free labels for takeaway and delivery orders and food labels in restaurants and grocery stores. Compatible with a range of low tack liner-free media*, labels can be removed and repositioned leaving virtually no residue on food and product packaging.

Printed orders and labels improve order accuracy. Labels can be used to accurately track orders throughout the preparation process and then can be attached to the final food and drink packaging for customer collection. *contact Star for supported paper

- Compact direct thermal linerless label printer
- Low tack linerless re-stick media support *contact Star for supported labels
- 203dpi print resolution for high contrast text, graphics and barcodes
- Fast print speed up to 180mm/s
- Internal power supply
- 40mm*, 58mm*, 80mm paper widths (*with paper guide supplied)
- Up to 83mm paper roll diameter

- Up to 86µm paper thickness
 - Autocutter (partial cut)
 - Paper Taken Sensor for queuing labels
 - Cash drawer and buzzer support
 - USB-C, LAN, USB-A, WLAN (with optional MCW10) module)
 - Star CloudPRNT Technology for Cloud based software
 - Free Star Label Builder with Star Cloud Services
 - StarPrinter.Online managed CloudPRNT support
 - 4 year warranty

Order 519

Mango Milk Bubble Tea nel Frapp

Key applications

📢 Hospitality Kitchen orders, food and

drink labelling 🔨 Retail

Grocery and Convenience stores

Save paper with liner-free media

Liner-free media reduces waste as there is no backing paper. The TSP100IV also prints variable length labels, meaning paper isn't wasted for labels or orders with just 1 or 2 line items. A top margin reduction of 5mm, a choice of label widths and vertical text reduction also reduce cost and environmental impact.

Compact and versatile design

The TSP100IV SK, with internal power supply, can operate horizontally, vertically or mounted on a wall and has the same compact footprint as Star TSP100IV-UE.

Future-proof Connectivity

With a range of connectivity choices, the TSP100IV is ideal for PC, tablet and Cloud based systems.

- USB-C, Ethernet LAN, USB-A and Cash Drawer/Buzzer connectivity
- WLAN connectivity with MCW10 option
- AOA direct sync and charge connectivity for supported Android tablets and devices
- Star CloudPRNT connectivity for Cloud POS and online ordering systems with StarPrinter.Online and Star Micronics Cloud Services Support

Free Cloud Label Design Software

Unlock the full potential of your Star label printer by registering with **Star Micronics Cloud Services** and gain access to the free Star Label Builder. Whether you prefer to use existing templates or creating entirely customizable labels, this user-friendly platform allows you to seamlessly combine text, barcodes, and graphics for unique, repositionable label designs.
