PRODUCTS GUIDE

OUR COMMITMENTS

PRODUCTS ECO-DESIGNED IN FRANCE

At MOBILIS®, we have chosen to optimize our environmental and social impact throughout the life cycle of our products. We design our products with sustainability, recyclability and repairability in mind, in terms of choice of materials, place of manufacture, transport, packaging and end-of-life management.

This label, awarded by AFNOR, certifies that MOBILIS® products are mainly manufactured in France and comply with strict criteria of traceability and production criteria.

MOBILIS® was awarded the **Silver ECOVADIS** medal for its commitment to each of the 4 themes: Environment, Ethics, Social and Human Rights and responsible purchasing. **Top 15%** of companies in the sector.

SMARTLOOP™

An INTERNAL label for greater transparency!

At MOBILIS®, we are aware of our environmental impact. The manufacture of our products generates 5,400 tonnes of CO₂, representing 82% of our carbon footprint. Faced with this fact, we created SmartLoop™, an initiative aimed at maximising the integration of recycled materials in all our products and to ensure their recycling at the end of their life.

What does this mean in practice?

MOBILIS® already designs its products with an eco-designed approach and is committed to incorporating recycled materials into its entire range:

- **Shells (PROTECH, SPECTRUM, R SERIES):** 100% recyclable in our Annecy factory and fully reintegrated into the production cycle.
- **Luggage & Accessories:** The percentage of recycled materials is expressed as a number of equivalent bottles (outer fabric and lining) and is transparently displayed on each product.
- **Made in France charger:** 100% recyclable and designed to reduce the carbon footprint of the refill.

With SmartLoop™ each MOBILIS® product contributes to reducing our impact and transforming waste into sustainable solutions!

SINCE 1993,

we design and manufacture **protective cases, luggage and accessories** to protect and transport mobile computing devices.

2024 KEY FIGURES

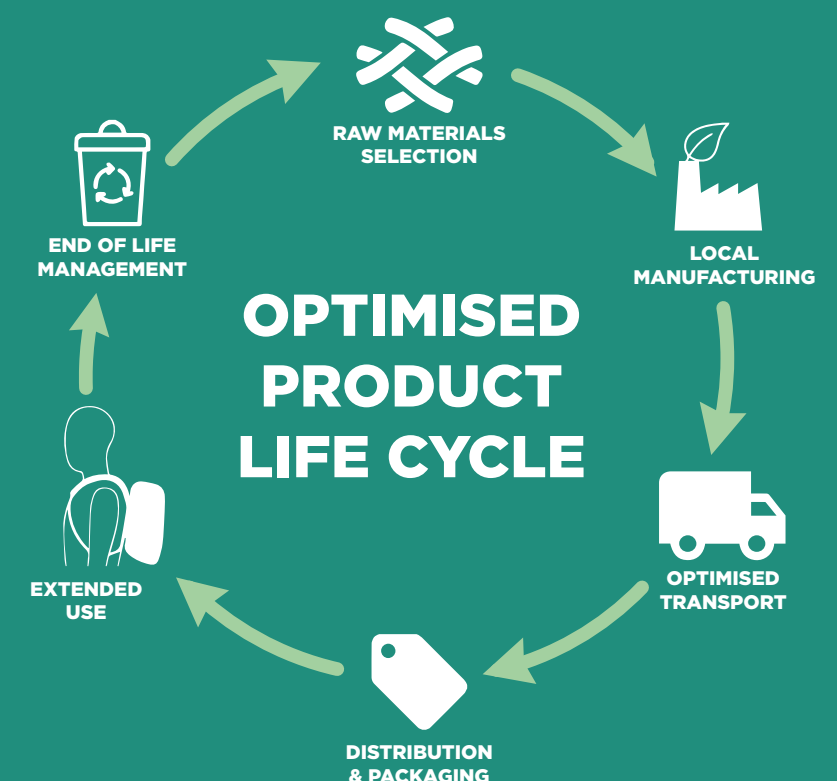

- 23M€** turnover
- 8** subsidiaries
- 2** French factories (*Annecy and Vierzon*)
- 700** new products per year
- 40%** of our products made with recycled materials
- 85** distributed countries
- 100** employees
- 53%** of women
- 10** associate employees

KEY DATES

- 1993** MOBILIS® creates the first permanent protective cover for laptops
- 1999** 1st factory in France: cutting, assembly and sewing workshop
- 2008** Modernisation of the Méreau factory (18): integration of automatic cutting, laser cutting and CAD
- 2015** Integration of 3D modelling and design
- 2019** Opening of 2nd factory (zero waste) in France: expertise and plastic injection centre
Moved 4 production lines from china back to france
- 2021** MOBILIS® commits to the United Nations Global Compact
- 2022** ECOVADIS evaluation, MOBILIS® ranked in the top 20% of companies in the sector for its CSR management system
- 2023** 1st Carbon assessment
- 2024** Acquisition of Tablette Store (www.tablette-store.com)

OUR PRODUCTS ARE ECO DESIGNED

At MOBILIS®, we ensure that our products are virtuous throughout their life cycle. We analyse each stage from design to end of life to optimise our environmental impact as much as possible.

**WE THINK,
WE DESIGN,
WE MANUFACTURE**

HHD CASES

WHY USING A CASE ON YOUR DEVICE?

In order to choose a suitable **protective case**, several factors must be taken into account: a **level of protection that corresponds to your working environment, portability, weight and compatibility with the manufacturer's accessories**. We design custom-made protective cases with due regard to daily usage and working movements.

FOR DECISION-MAKERS

Control of maintenance costs

Our protective cases prevent breakage and therefore reduce repair costs.

Durability

Protecting a device with a high-quality protective case extends its lifespan.

Productivity

A device that remains in use guarantees continual workflow, it does not need to be replaced.

Drop resistance

- ✓ Drop test intensive use simulation
- ✓ 90 cm/3ft high : desk use
- ✓ 1.20 m/4ft high : stand up use
- ✓ 1.80 m/6ft high : stand up use + scan action

FOR USERS

Easy to use

Our protective cases, equipped with portability accessories, are easy to use in the work environment.

Enhanced accessibility

Our protective cases do not need to be removed. All features, charging ports, buttons and scanners remain accessible.

Antimicrobial

Antimicrobial materials maintain a high level of hygiene even when a device is shared.

MIL-STD 810G NORM

Robustness, reliability & durability testing of equipment

Compatible with manufacturer docking

Manufacturer trigger compatible

"From the moment MOBILIS® understood our initial need to improve the daily labeling and mark-down operations of our staff, they supported us by designing custom solutions tailored to our requirements. Thanks to their customized solutions, we equipped our teams with complete portability solutions that enhance productivity while ensuring compliance with usage and ergonomic standards. This has made their work safer and more efficient, keeping everything on their person and eliminating the risk of losing or dropping equipment in the aisles."

WHY USE A HOLSTER?

Express delivery firms, postal services, warehouses, and logistics hubs are faced with a significant number of orders to prepare and parcels to be shipped.

Quick, on hand access to your device, secured in a **specific holster** and adapted to your **daily activities**, proves beneficial for both businesses and users!

FOR DECISION-MAKERS

Optimised TCO

The device is not likely to accidentally fall, resulting in less breakages and lower maintenance costs.

Improved productivity

A device within reach guarantees continuous work-flow, facilitates movement and improves speed.

Unmatched value for money/durability

MOBILIS® mobile holsters are the highest rated on the market.

FOR USERS

A daily time saver

Waste no more time looking for your device, it is always within easy reach.

Easy access

Our easy in / easy out bespoke transport solutions adapted to your interface enable you to use your device as many times as is necessary.

Product development and finishing touches adapted to your specific business requirements

Our mobile holsters enable you to wear your device more comfortably regardless of the frequency of your activities.

"MOBILIS® has accompanied us from the moment that first on site needs were expressed. They were able to design a custom-made holster, taking into account the specific needs of our delivery staff. A solution that has enabled them to work safely and more comfortably."

A.D.C Director of Operations and Infrastructure

SCREEN PROTECTION

WHAT IS IK NORM?

Shock resistance index (mechanical impacts)

IK 03 = Screen Protector // **Tempered Glass**

Resistance to a 0.35J impact = mass of 0.25kg falling from 14 cm height.

IK 06 = Screen Protector // **Anti-Shock**

Resistance to a 1J impact = mass of 0.25kg falling from 40 cm height.

IK 08 : Flap / Custom option

Resistance to a 5J impact = mass of 1.25kg falling from 40 cm height.

IK index	IK03	IK04	IK05	IK06	IK07	IK08	IK09	IK10
Energy in Joule	0.35J	0.50J	0.70J	1J	2J	5J	10J	20J

What is «Hardness» or «9H»?

Hardness is a physic quality indicating the resistance to touch, pressure, shearing, shock and wear... In other words mechanical issues!

Hardness describes mineral, metal, materials, water... (The harder is Diamond - 10H).

END OF BREAKS & SCRATCHES

Unbreakable & flexible: the best protection on the market

Hardness 5H: high resistance to scratches and breaks

Oleophobic: repels water, grease and dust

Very thin: 0.33 mm

WEARABLE ARMBAND

WHY CHOOSE A WRIST MOUNT?

Our universal wrist mounts enable you to associate a wide range of professional mobile devices (a Honeywell or Unitech scanner for example) or public mobile devices (a ring scanner or terminal gun). An economical choice for your hardware and for the management of your TCO (Total Cost of Ownership).

The MOBILIS® wrist mount enables you to safely attach your terminal to your arm, **without the risk of it falling or breaking**. Immediate visibility of data on the control screen, a link to voice dictation functions and hands-free help **maximise performance**.

Comfortable to wear, easy to install and intuitive to use – **as simple as a watch!**

FOR DECISION-MAKERS

Save money
The universality of our wrist mount enables you to choose from a wide variety of mobile devices.

Improved TCO management
Securely attached, the terminal cannot be lost or broken due to a fall.

Optimised productivity
Within easy reach, workflow remains continuous and performance is improved.

FOR USERS

Ergonomic
Perfectly fitted to the forearm, our wrist mount is lightweight and comfortable to wear all day.

Easy to wear
Easy IN - Easy OUT, our wrist mount is as simple as a watch, to put on and take off!

Hands-free
Movement is simple and dexterity total.

KEEP YOUR HANDS FREE

- **Light support** : the weight is well distributed on the forearm
- Elastic velcro straps to **fit all body types & uniforms**
- Honeycomb foam for a **good breathability**
- Several configurations available: **fixed, removable or universal**

PORTABILITY

WHY CHOOSE AN ACCESSORY?

On the job, every second counts. By facilitating the use of your mobile terminal for your daily activities, you **improve both comfort and efficiency!**

Gain in flexibility and keep your device within reach by adding a **shoulder strap**, a **wrist mount** or a **belt**. A clip system enables you to rapidly remove your device. A hands-on stylus allows for more accurate data entry whilst a phone support for your vehicle is extremely practical when following a precise route.

Never underestimate the use for accessories!

FOR DECISION-MAKERS

Improved productivity
Increase efficiency with the right accessory.

Safety first
Bring safety and comfort to users.

An economical option
Choose a universal accessory to fit all devices.

FOR USERS

Guaranteed portability
Gain freedom of movement and facilitate your daily routine.

Unequaled ease
Simplify data input and other operations.

Speed in use
Improve efficiency.

RELOCATE THE USB-C PORT TO THE BACK OF YOUR DEVICE WITH THE ENERGIA MOBILE MAGNETIC POGO PIN RECEIVER (USB-C)

The USB-C connector on your mobile is protected against wear and tear caused by repeated plugging and unintentional disconnection. Ideal for intensive use (100,000 usage cycles).

Once connected to any charger, the system guarantees rapid charging* with no loss of energy.

**65W Max Charging – USB-C 2.0 / Data transfer (480 MB/s)*

**Energia Mobile - Magnetic POGO
Pin Receiver (USB-C)**
Ref. 020006

Powerful magnetic fixing

4 magnets with a tensile strength of 2.15 kg ensure a secure hold.

PogoPin contactor

It redirects the original USB-C port to the back of the device, enabling charging and data transfer without manual plugging, for a smooth, instant connection.

3M adhesive fastener

Adheres directly to the terminal or shell with a high-resistance 3M adhesive, guaranteeing a long-lasting hold without the need for readjustment.

A COMPLETE MAGNETIC MOUNTING AND CHARGING SOLUTION FOR EVERY ENVIRONMENT

Whether **in the car**, **at the office**, or **on the go**, effortlessly **attach and charge your phone**. Ergonomic and durable mounts designed for every situation. Your smartphone stays secure, within reach and always ready to use.
